

EUROPEAN COMMISSION FOR ROAD SAFETY IN ARMED FORCES

To: ECRAF Member Countries

ECRAF members and friends

This year will go to history in many ways. But the covid-19 virus has also shown that the armed forces have to be a resource in the national and international plans for a stressed society. In this ability building and use of all national resources to handle this situation ECRAF and road safety are factors that contribute to success. The expertise you have in road safety is central for your respective nation and for ECRAF to be a competence organization known for correct facts and best practice in the road safety area.

Due to the covid-19 spread through Europe the options to exchange knowledge in the road safety area has diminished and changed. But ECRAF and road safety always tries to contribute to improvement and to find new roads to reach our goal; to be a competence organization where experts gather and exchange their knowledge.

The ECRAF executive committee has, with this ingress expressed, the pleasure to invite you to the first ECRAF webinar. It will be held the on 8th and 9th of September 2020. The method and technical solution to perform this webinar is MS Teams. You will be provided with more information regarding the technical issues in the program and further more in late August.

The webinar includes guest presenters and presentations made by ECRAF delegates. During this webinar each nation can be represented by up to four persons. On the 9th of September 2020 the General Assembly (GA) will take place. In the GA only one delegate per nation can vote according to ECRAF statutes. But up to four delegates per nation can participate in the GA.

ECRAF needs your announcement to take part in this webinar and General Assembly no later than the 21st of August 2020. More information about this is found in the program. We hope to see you all in the 8th and 9th of September.

Yours Sincerely

JOHAN PIHLSTRÖM
President ECRAF
