

EUROPEAN COMMISSION FOR ROAD SAFETY IN ARMED FORCES

President Johan Pihlström,
Head of Road Safety
Swedish Armed Forces

To: ECRAF Member Countries

Skövde 28th May 2020

Dear ECRAF members

The ECRAF Executive Committee hopes you are all healthy and can have a sort of normal day to day business, both at work and in the private life. In these times we all have to adapt to a new situation in the society and take our responsibility to minimize the covid-19s effects. ECRAF has to handle the situation as well.

ECRAF Executive Committee has discussed how to handle the ECRAF activities during the covid-19 situation in Europe, and has come to the decision to cancel the ECRAF Congress in September 2020 as a physical congress. Instead of a physical congress this year the Executive Committee is planning to hold a web seminar on Tuesday the 8th of September and if needed on Wednesday 9th of September. In this web seminar it will be held a General Assembly so the statues can be fulfilled. During this seminar nations are welcome to hold a presentation connected to topics decided by Executive Committee grounded from suggestion from you as delegates. Therefore the EC requests for suggestions on topics for the web seminar. In order to plan the seminar before the summer break, the EC needs the proposals by June 12, 2020.

The EC will send an invitation and more information about the technical solution related to the web seminar at latest in June 2020.

For the future ECRAF will proceed with a regular Congress in Bonn in 2021 with Germany as host nation. If your country can be a host nation for the congress in 2022 or later, do not hesitate to get in contact with the EC or me as President.

Yours Sincerely

JOHAN PIHLSTRÖM
President ECRAF
